MolimoTM

Safety Glazing Testing

Fast, Accurate Test Processes and Results

Test Methods

- CPSC 16 CFR 1201
- ANSI Z97.1
- CAN/CGSB-12.1

Products

- TEMPERED GLASS: Tempered, patterned, or bent
- LAMINATED GLASS: Transparent and specialty products

Safety Glazing Testing

Molimo is ISO 17025 accredited and approved by the Safety Glazing Certification Council to perform testing to the industry standards for the properties of safety glazing materials.

Safety glazing materials reduce the chance of injury when broken by human contact. To ensure your products meet these industry standards, we subject them to impact and then analyze fragment size or glazing penetration as applicable. In addition to impact safety, Molimo offers thermal exposure for laminated products to ensure that your glazing materials perform over time. Our customers value fast, accurate outcomes. We deliver results quickly and accommodate needs as they arise.

Molimo is a company built on experience. Together we exceed 350 years of expertise in the building products testing industry. We prioritize accuracy, speed, and integrity.

Test Results You Can Build On

More Molimo Testing Capabilities

- AIR, WATER, STRUCTURAL TESTING
- BLOWER DOOR TESTING
- DECK & HANDRAIL TESTING
- FIELD TESTING
- IMPACT & CYCLING TESTING
- INSULATING GLASS TESTING
- MATERIAL & COMPONENT TESTING
- PRE-CONSTRUCTION MOCK-UP TESTING
- SAFETY GLAZING TESTING
- THERMAL TESTING & SIMULATION
